

# SWINDELLS CHILD DISABILITY RESOURCE CENTER 2011 SPEAKER SERIES

## PRACTICAL USE OF SENSORY INTEGRATION *A SERIES FOR PARENTS*

Sensory Integration disorder or dysfunction (SID) is a neurological disorder that results from the brain's inability to integrate certain information received from the body's five basic sensory systems.

Britt Collins M.S., OTR/L, has worked tirelessly on OT and Sensory Integration awareness, research and application. She is considered a leader in the SID field and has presented nationwide alongside experts Temple Grandin and Carol Kranowitz, as well as autism activist, Jenny McCarthy.

**Salem Hospital Community Health Education Center**  
875 Oak St SE, Salem, OR 97301
